

# Niagara - Countertop

The Niagara countertop high volume water cooler is a great addition to any restaurant, café or bar as it has the ability to dispense high volumes of premium quality filtered water efficiently while taking up only a small amount of counter top space.

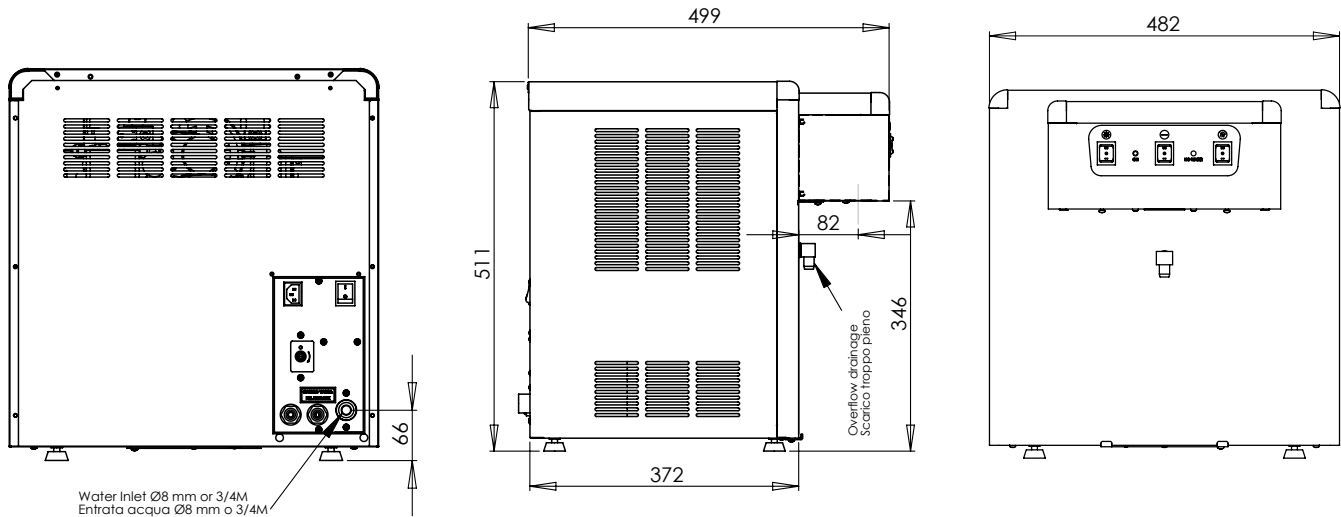

This countertop dispenser is designed to meet the need of venues where there is high water consumption but space is at a premium. It provides a constant high volume supply of cold, ambient or sparkling water with a large dispense height suitable for filling bottles.

## Key features

- Electric Control (optional)
- Sparkling (optional)
- Ice Bank Cooling System
- Leakage Safety Valve
- Cu= Safepath Biofilm Prevention
- Quick Fit Drip tray system (optional)
