

# WL200

## Clean and refreshing water on demand

The WL200 delivers on a promise of endless refreshing chilled water for your workplace as it is designed to feature multi-stage filtration and BioCote antimicrobial technology. The business friendly design and guaranteed reliability ensure you have all the quality cold water your employees and guests need.

### Advanced Technology

The WL200 has the following core technologies:

**1. Filtration:** The best filtration for your local water conditions will be installed to provide you with the cleanest, and best tasting drinking water available.

**2. BioCote®:** Antimicrobial technology that is proven to be effective against a wide range of microbes such as odor causing and staining bacteria, mold and fungus. BioCote reduces microbes by up to 99.99%\*.
