Project Description: Point of Use Water Purification coolers installed and maintained at all bank branches across the US.

Differentiators

- Only Waterlogic combines advanced filtration, UV purification, and BioCote® for unrivaled purity and peace of mind
- Exclusive Firewall® UVC purification delivers 99.9999% bacteria-free water and guaranteed effective against COVID-19
- BioCote® antimicrobial technology has been proven to reduce the number of odor and stain-causing microbes on a protected surface by up to 99.99%
- Up to a 72% carbon footprint reduction compared to a bottled water cooler
- Country of Origin: USA products
- The most certified cooler in the world

Certifications may vary depending on different models or products.

BioCote® technology does not protect users or others against disease causing bacteria,germs, viruses or other harmful organisms. This technology is not a substitute for good hygiene or cleaning practices.
