

# WL250

Performance worthy of an encore and functional design for the workplace

## Refreshing water for any working environment

With a choice of hot or cold, the WL250 is a popular choice for offices and factories where great quality water is required.

## Advanced technology

The WL250 features three core technologies:

### High performance filtration

Waterlogic's filters are certified to stringent standards by IAPMO R&T, carrying the Water Quality Platinum Seal, meaning they offer the best possible filtration. Multi-stage filtration removes common water contaminants and chlorine to dramatically improve water taste and odor.

### In-tank UV sanitization

Waterlogic's in-tank UV technology acts against waterborne microorganisms and bacteria, dispensing great quality water, glass after glass.

### BioCote<sup>®</sup> product protection

The key plastic surfaces surrounding the dispensing area are infused with BioCote<sup>®</sup> technology, a silver ion additive that inhibits the growth of odor and stain causing microbes, such as bacteria and mold.

## Simply great, clear water<sup>\*\*</sup>

Free from fluoride, free from chlorine, and free from water-borne tastes and odors. (Dependent on filters type and water conditions.)

<sup>\*\*</sup>Filtration results based on the use of RO, GAC, CBC, or sediment filters.

\*BioCote<sup>®</sup> silver ion technology protects surfaces from odor- and stain-causing microbes. BioCote<sup>®</sup> does not protect users or others against bacteria, viruses, germs or other disease causing organisms. This technology is not a substitute for good cleaning practices.

## Features

In-tank UV technology is highly effective against germs and bacteria. A UV lamp treats the water stored in the reservoir for fast, reliable, and easy water purification

Removable drip tray to collect accidental spillage

BioCote® treated dispensing area to protect it from odor and stain causing microbes

Thermal overload protection

Easy connection to the existing water supply

Leak detection for peace of mind

## Water options

cold

hot

Number of users: 10-30

## Technical specifications

### Types available

Freestanding and countertop

### Dimensions

Freestanding

13.6" (W) x 40.2" (H) x 14.4" (D)

Countertop

13.6" (W) x 17.7" (H) x 14.4" (D)

### Dispensing area height

8.5"

### Weight

Freestanding: 58lbs

Countertop: 42lbs

### Recommended filtration

Sediment, GAC, CBC with lead and cyst removal  
(dependent on local water conditions)

### Storage capacity

Hot tank 1.6 liters

Cold tank (freestanding): 4 liters

Cold tank (countertop): 2 liters

### Drip tray capacity

.4 US gal

### Compressor

120V/60Hz

### Water temperatures settings

Cold: 37-54°F (default)

Hot: 187°F
