

# BILLI ALPINE

Our range of chilled and ambient integrated water dispensers are designed and manufactured as energy efficient filtered water systems that offer customers the very best in innovation, superior performance and reliability.

## Water options

Chilled

Ambient

## Configuration

Billi under-counter units have one of the smallest installation footprints, making the most of your space

Billi water-cooled systems do not require ventilation. No cabinet cut outs needed during installation process

## Compatible dispensers

### Adjustable chilled temperature

A simple adjustable control allows the chilled water temperature to be raised to 15°C or lowered to 6°C for perfectly chilled, refreshing drinks, with your required temperature being quickly reached and maintained.

### Premium filtration

Billi's range of premium filters are equipped with a unique multi-layered structure which provides superior water quality.

The Billi Alpine range is compatible with all Billi filters.

### Eco-Intelligence technology

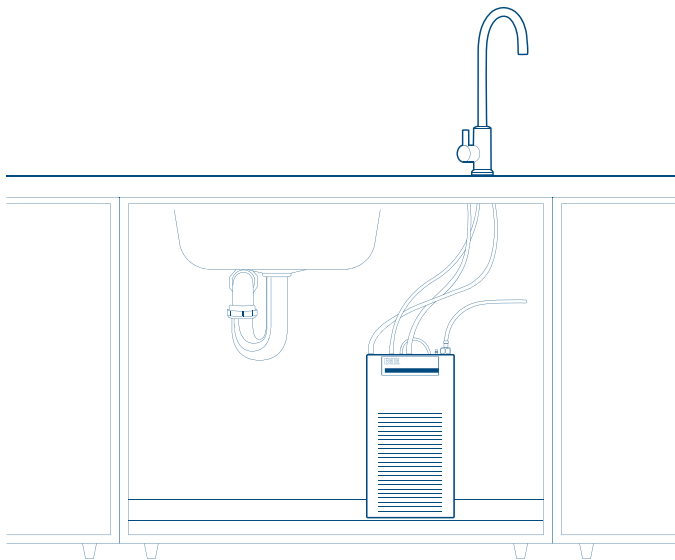

Billi Alpine utilises a unique high performance tank, which features superior insulation to keep the water cold, and ensuring less energy is used during the chilling process.

Model	Suggested n. of people	Ambient water delivery cups per hour *	Ambient water delivery cups per hour	Height (mm)	Width (mm)	Depth (mm)
Alpine 120	up to 20	Unlimited	60	340	180	460

\*The system will continue dispensing ambient filtered water after the chilled tank is fully drawn.

### Installation

With a focus on space saving, Billi units are often less than half the size of comparative products. This allows for the most economical use of under-counter space.

Typical installation set-up - the image is for illustrative purposes only.

Alpine under-counter

Round Slimline single levered dispenser

### Tested and certified
